

Washington Federation  
of Independent Schools

Welcome to the Legal Seminar!

WFIS is proud to host this day-long training conference focused on exploring pertinent legal issues facing private schools in Washington.

The Washington Federation of Independent Schools has a 50-year history of advocating for private schools. WFIS is in Olympia with the legislators as educational policy is created to assure private schools are protected from unnecessary regulations. WFIS' strong leadership gives private schools a seat at the table as decisions that affect schools are being made.

This gathering today connects you with accomplished law firms, as well as risk and security experts that work with many private schools in Washington State. They understand the complexities of running a school, are thoughtful about their approach to complicated issues, and actively work to sustain schools and help them thrive.

The Legal Seminar is a forum for schools to receive information, consider complex topics and get answers needed for the long-term health of their school community. Private education is strongest when our school leaders understand the nuances of the law and can appropriately respond to or completely avoid potential issues.

WFIS and these experts welcome you. We work together today to support your work and your school.

Have a great day!

Suzie Hanson

Executive Director,  
Washington Federation of Independent Schools
